Grand High Court Heroines of Jericho PHA of Texas
Norris Wright Cuney Grand Chapter of Texas**

Procedures for COVID Stations

June 23-25, 2022

All in attendance, be they member, candidate, guest, or vendors, are required to clear the COVID Station. Those working the administrative positions assigned to the COVID Station are tasked with ensuring compliance with the Prince Hall Masonic Families policies and procedures on COVID. Those policies and procedures are as follow:

1. On initial contact, aides will ask for and review COVID Vaccination Card. They will review both sides of the card to insure its validity.
2. If no Vaccination card, aides will ask for and review a PCR or rapid test from a certified Medical Facility taken within 72 hours of the present date.
3. If attendee has neither Vaccination card or PCR/rapid screening test, then that person will be referred to a rapid testing facility and not allowed entrance.
4. If vaccination card/ PCR results are verified then have the guest/member fill out the legal waiver.
5. Have the guest/member, fill out the COVID questionnaire.
6. Perform a temperature check. If the reading is greater than 100.4 F/38.0 C, that person will not be allowed to enter. They need to be tested and will be directed to a rapid testing facility.
7. If all steps are followed and there are no negative issues, then that person will be issued a color-coded wristband and will be considered to have cleared the COVID Station. This will allow all to easily identify those in attendance that are following the rules set forth. Monitors will be placed throughout the venue to ensure compliance
8. All individuals are also to be reminded not to remove these wristbands as doing so might require them to go back through the COVID Station.

Subsequent Days:

1. All individuals with a wristband, after a temperature check and answering COVID related questions, will have the old wristband removed and issued a new color-coded wristband for the day. This will occur each day of the conference.
